

aera

PRESENTATION

**AERA, specialists in
shrink wrapping and
paper packaging for
over 40 years!**

MISSION STATEMENT AND VALUES

Mission statement

We are a modern, family-run company specialising in the provision of high quality flexible packaging for European manufacturers in the agri-food, printing, pharmaceutical and cosmetics sectors. We are driven by our twin cultures of innovation and excellence, which nourish the versatility our customers demand.

Values

Our values are respect for commitments, professionalism, excellence and customer satisfaction. They are the cornerstone of the strong, preferential partnerships we have developed.

OUR CERTIFICATIONS

AERA is BRCGS certified to ensure the food-safety standards of our products and ongoing performance improvement across the whole of our process.

AERA is also ISCC PLUS certified to market sustainable rPOF/rPET/rBOPP films.

**AERA meets all
your specifications!**

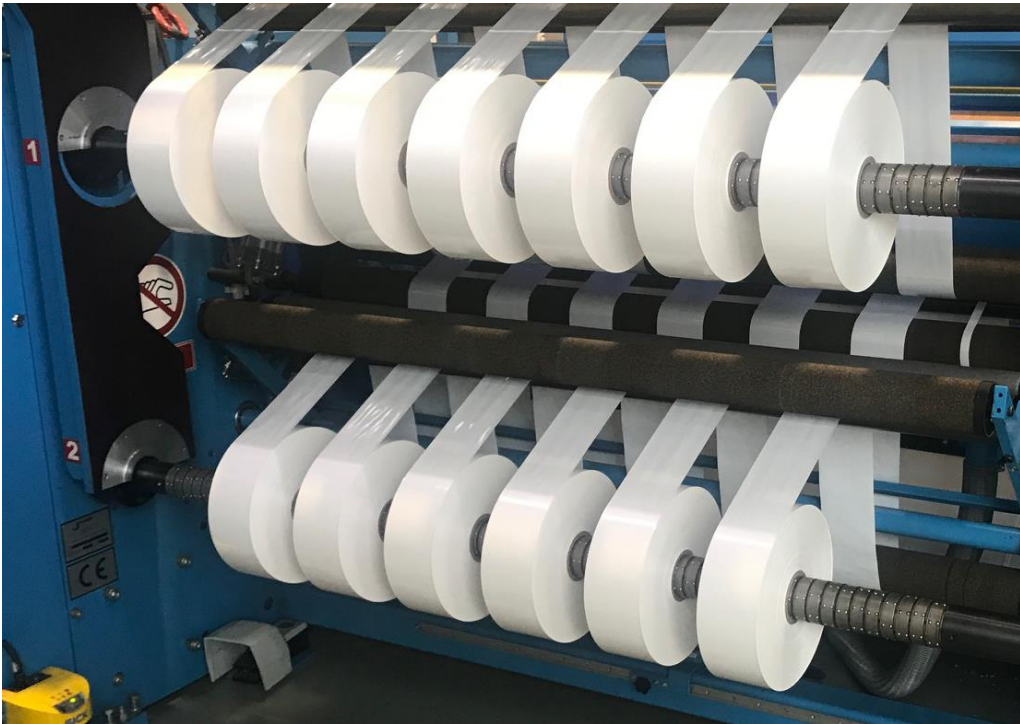

- **Chuck: 70, 76 or 152 mm**
- **Customised reel lengths**
- **Individually packaged reels (transparent or blue bag)**
- **A range of palletising options**
- **Automatic reel change**
- **With or without connections (aluminium or red)**
- **Integrated chuck cutting**

4 HIGH-PERFORMANCE CUTTING LINES

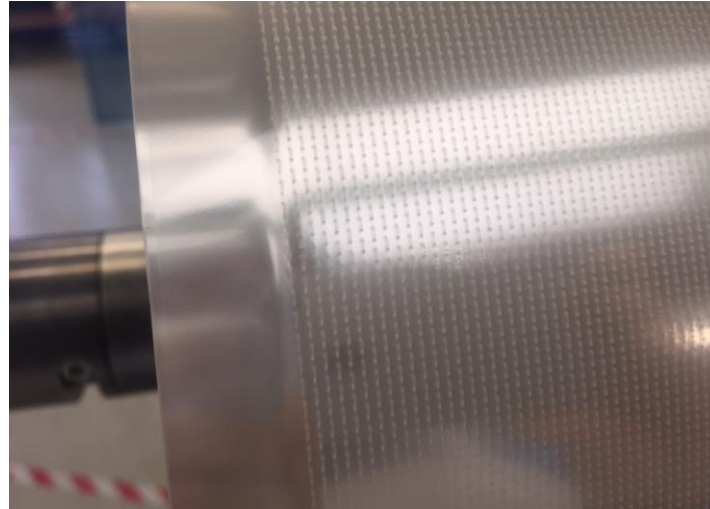

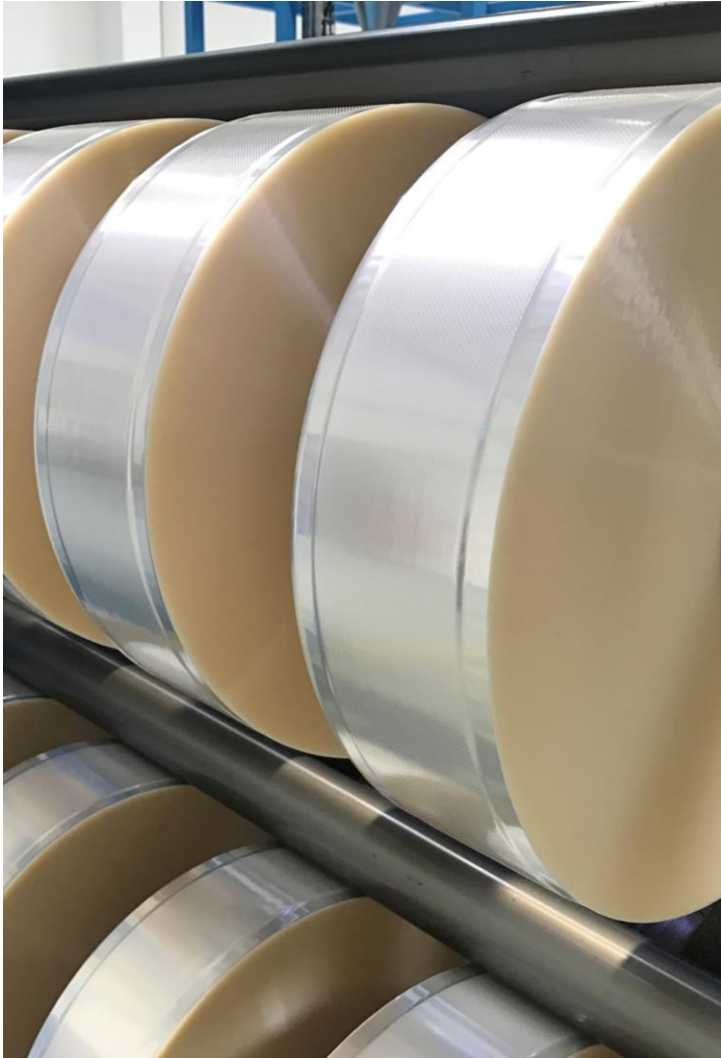

- Reel width of up to 1700 mm
- Cutting capacity: 20 to 30 tonnes per day
- AERA is BRCGS packaging certified
- A permanent stock of about 2000 tonnes
- We work with world-leading extruders

PRECUT REELS

- **Widths from 25 to 1100 mm**
- **Maximum diameter: 600 mm**
- **Chucks: 70, 76 or 152 mm
in cardboard or PVDC**
- **Standard or custom reel labelling**
- **Individual plastic bag**
- **Customer specification management**

**Our films can be
hot
microperforated
and cut to your
specifications**

A LARGE STOCK DRIVES EXCELLENT REACTIVITY

- **Delivery time: 24 to 48 hours for your urgent orders**
- **Weekly door-to-door deliveries for quantities ranging from a pallet to a full truck.**
- **A permanent stock of over 1500 tonnes of jumbo reels in films including BOPP, PLA and PET**

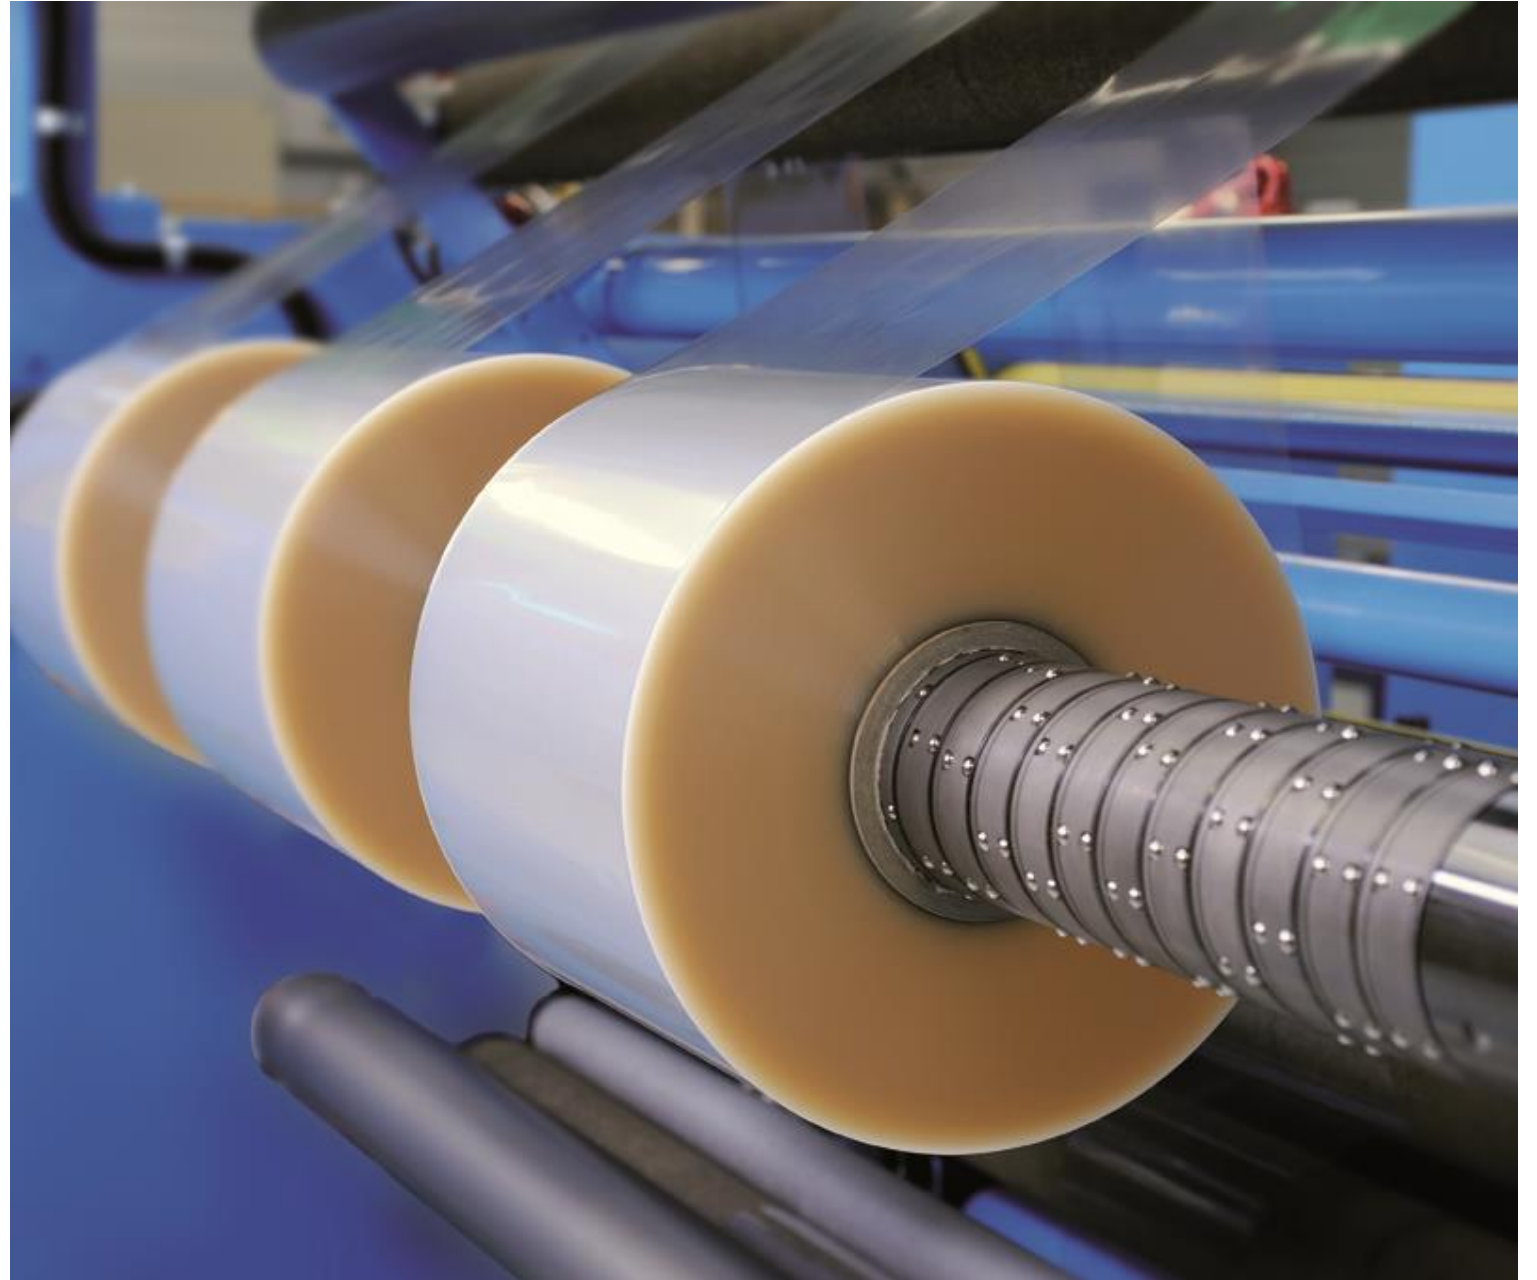

**We deliver
everywhere
in France
and Europe!**

**OUR RANGE OF
FLEXIBLE
PACKAGING
FILMS**

RANGE OF FLEXIBLE PACKAGING FILMS

- **Polyolefin shrink films**
 - **Plain and low seal initiation temperature BOPP**
 - **White and metallised BOPP**
 - **Coated BOPP (Acrylic, LTS, PVDC)**
 - **Barrier BOPP varieties: PVDC free**
 - **CPP films**
 - **Corona-treated or chemically coated PET film**
 - **Eco-responsible films (PLA, CELLOPHANE...)**
 - **rBOPP and rPET**
-

**Polyolefin shrink films,
ideal for all business
sectors!**

- **Food**
- **Personal care and cosmetics**
- **Pharmaceutical**
- **Multimedia**
- **Custom packaging**
- **Graphic arts**
- **E-commerce**

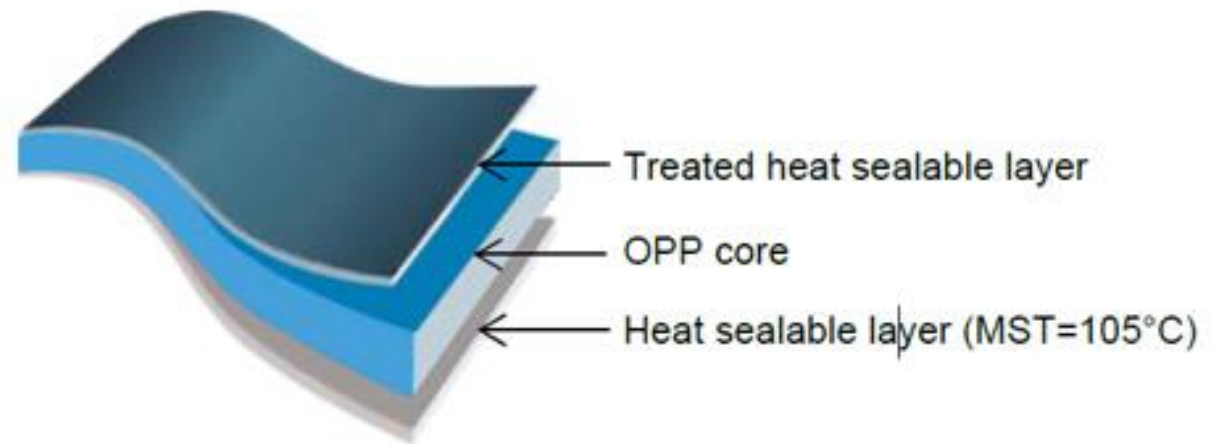

POLYOLEFIN SHRINK FILMS

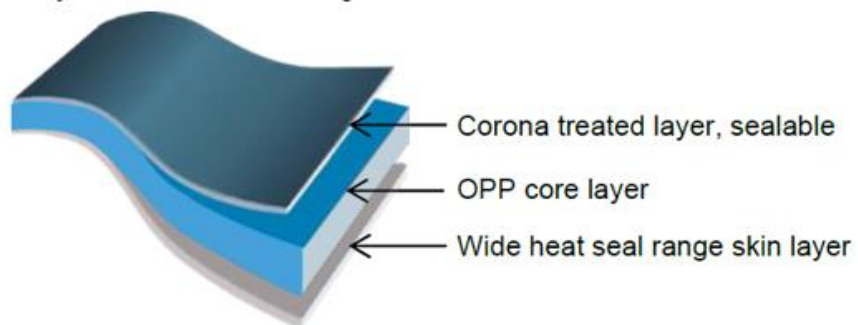

- **Thickness: 11 to 25 microns**
- **Width from 150 to 1000 mm**
- **Food grade quality**
- **Large stock**

BOPP STANDARD

- Sealing between 105 and 145°C
- Transparent
- Thickness: 15 to 50μ
- Flowpack, horizontal and vertical packaging lines
- Moisture and oxygen barrier
- Suitable for food products
- Corona treated on one side for printing

INITIATION TEMPERATURE BOPP

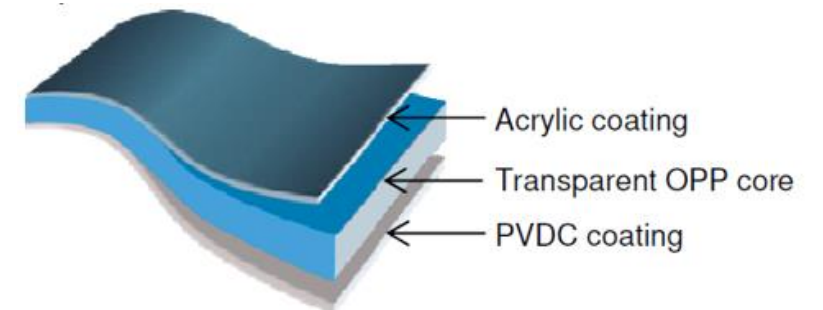

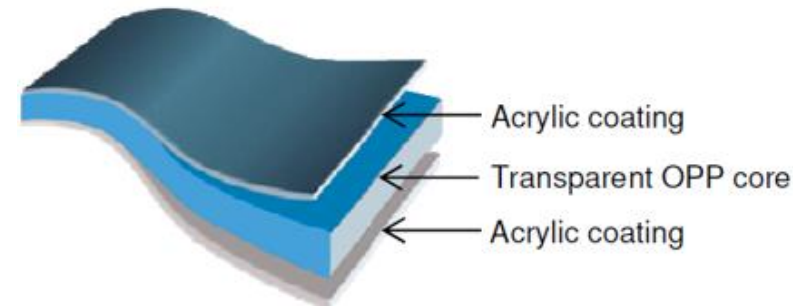

- **Sealing from 85°C**
- **Transparent**
- **Standard thickness: 25 and 30μ**
- **Mainly used on high-speed flowpack machines**
- **Moisture and oxygen barrier**

COATED FILMS FOR COSMETICS

Specific features:

- Excellent gloss
- Regular coefficient of friction/peel
- Suitable for X sealing machines
- Oxygen and aroma barrier

PVDC-FREE BARRIER FILM

Specific features:

- Chlorine-free barrier
- Recyclable in the flexible PP or PE sector (if available)
- Moisture and oxygen barrier
- Films suitable for high speed machines

OUR ECO-RESPONSIBLE RANGE

- **OK compost or OK compost home certified**
- **Biosourced films**
- **Transparent, white BoPLA**
- **Coated transparent cellulose film (wood cellulose film)**

OUR RANGE OF PAPERS

OUR RANGE OF PAPERS

- **Crystal paper**
- **Standard brown or white paper**
- **Sealable coated paper**

Suitable for the food, e-commerce and graphic arts sectors,

OUR RANGE OF MACHINES

OUR RANGE OF MACHINES

We offer a wide range of shrink wrapping and paper packaging machines and systems to meet all your requirements

We work with 2 preferred partners: Hugo Beck and RonTech.

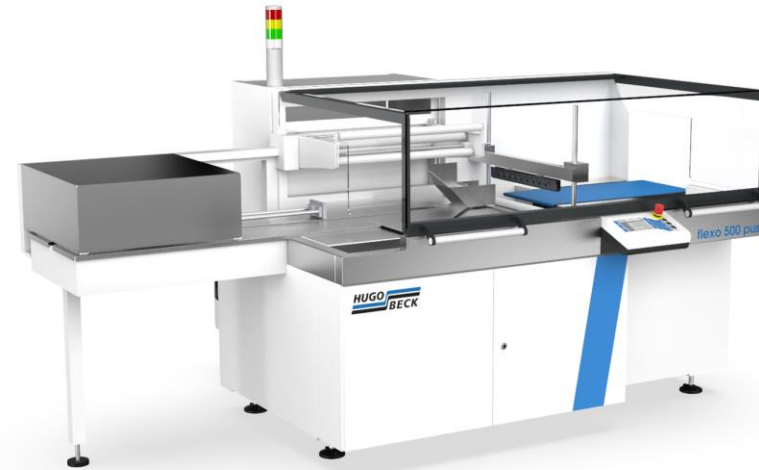

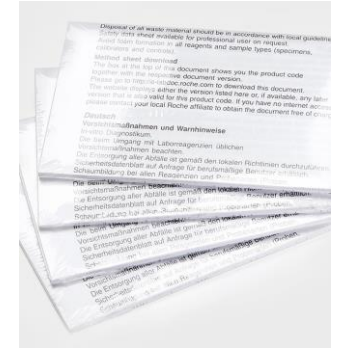

A wide range of machines to meet all your needs!

FLEXO 500

- Fixed sealing bar
- Continuous sealing
- 20 to 40 products per minute

SERVO X with sealing bar

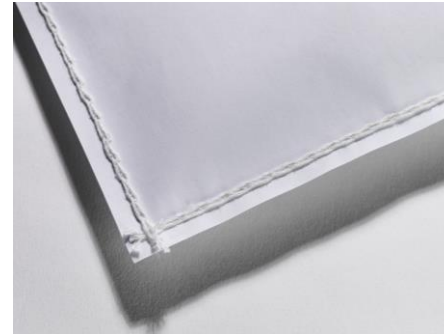

- High quality packaging
- Continuous frontal sealing bar
- 5000 to 12,000 packages per hour, depending on the model
- Preprinted film
- Automated batch creation

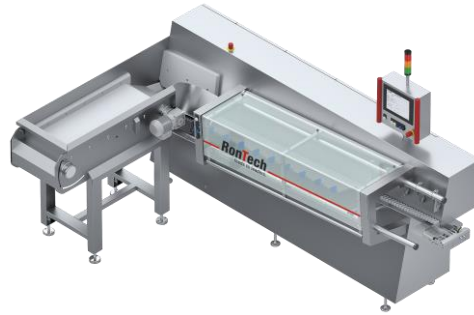

PAPER E-COM FIT

- Shipping packaging
- Recyclable paper
- Automatic adjustment
- Sewn side seam

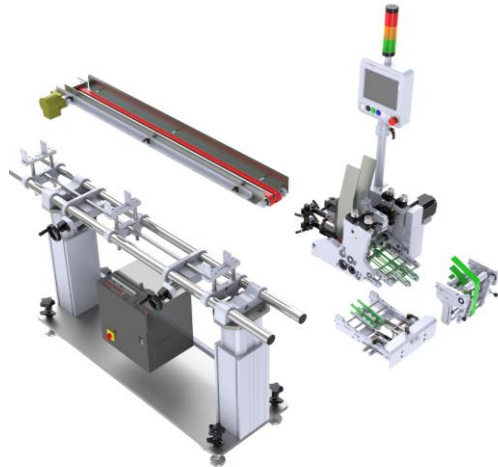

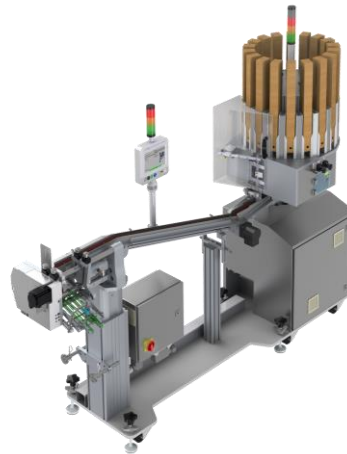

Revolver magazine

SpaceFeeder

Friction feeder

Special machines

SYSTEMS FOR PACKAGING LINES

RonTech , our partner, is the leader in product feed automation..

These systems ensure that products are conveyed to their destination quickly, precisely and in the required quantity,

OUR SAV SERVICE

AERA offers you a complete service and remains available for all requests.

Our technical service will be able to provide you with expertise and a response as soon as possible
